INTEGRATING CONTEMPORARY AND CLASSICAL THEORIES AND TECHNIQUE

(Includes Optional Case Conference)

A PATHWAY TO ANALYTIC THINKING

2021-2022

ONE-YEAR PSYCHOANALYTIC PSYCHOTHERAPY PROGRAM

COURSE DESCRIPTION

The LAISPS Psychoanalytic Psychotherapy Program offers an integrated curriculum that combines the latest in psychoanalytic research and theoretical thinking with the classical foundations of our understanding of the development of the personality. Each evening consists of a class on theories of personality development and a class on clinical technique. Over the course of the thirty-week program, we will cover object relations theory, early infant and childhood development, the major psychopathologies, as well as clinical issues such as establishing and maintaining a therapeutic frame, working with transference and counter-transference issues, and understanding and interpreting dreams in the clinical setting.

Our Psychoanalytic Psychotherapy Program is designed for a wide range of mental health professionals, at all levels of experience, including psychiatrists, psychologists, social workers, and MFTs who are new to psychodynamic thinking as well as those who are seasoned clinicians looking to sharpen and deepen their work with their patients.

REFUND INFORMATION:
A student has the right to a full refund of all charges if she/he cancels the enrollment agreement prior to or on the first day of instruction. In addition, a student may withdraw from a course after instruction has started and receive a pro-rata refund for the unused portion of the tuition and other refundable charges if she/he has completed 60% or less of the instruction. In the following example, a student who completed 10 hours of a 108-hour program for which she/he paid $2,200 in tuition would receive a $1,996.30 refund.

Sample Refund Formula:
Hours Paid For - Hours Attended x Total
108 hours – 10 hours x $2,200 = $1,996.30
