ALTERED STATES OF BODY AND MIND

A PSYCHOANALYTIC EXPLORATION OF SUBSTANCE ABUSE AND EATING DISORDERS

October 7, 2021 – May 26, 2022
Thursday Nights, 6:00pm to 9:00pm

LAISPS Classroom
12011 San Vicente Blvd. Suite 520
Los Angeles, CA 90049

*Fall and Winter class meetings will be conducted remotely.

Continuing Education credits offered.

Register by September 23, 2021 and receive a discount on tuition.

Victoria Curea, Psy.D, MFT
Lisa Crilley, M.A., MFT
Program Coordinators

Psychoanalytic theory posits that substance abuse, eating disorders and other addictive behaviors are ways of coping with intensely distressing states of body and mind. The person is searching for a way to protect and “restore the self,” or to be immune to narcissistic injury, abandonment, rage and, in some cases, the terror of “coming apart.”

This 30-week course begins with a review of **classical, object relations and intersubjective psychoanalytic concepts** pertaining to substance abuse and eating disorders.

We examine the **neurobiology of addiction, affect dysregulation and anxious attachment strategies** underlying compulsive food and substance use. We examine **sexual addiction, gambling, gaming and the allure of high-risk activities**. We look at how psychoanalytic psychotherapy helps us become more sensitively aware of the **culturally informed** meanings some diverse communities may attribute to food and substance use, stress, trauma and dysregulation.

Students will explore the slippery slope of **enactments** and how for some, a **psychotic character** may underlie a client’s eating or substance use problem. Finally, we uncover the powerful and covert dialogue between **personality disorders**, food and substance use.

ALTERED STATES OF BODY AND MIND

A PSYCHOANALYTIC EXPLORATION OF SUBSTANCE ABUSE AND EATING DISORDERS

GOALS and OBJECTIVES

- Describe the psychoanalytic theories pertaining to addictive states of body and mind.
- Decode unconscious motivations in the use and maintenance of addictions and eating disorders.
- Identify the brain structures and early developmental traumas that underlie the patient's affect dysregulation and struggle to cope with stress.
- Attend to primitive psychic structures, defenses and potential for enactments within the work.
- Apply psychoanalytic concepts and interventions to work with patients struggling with compulsive behaviors and process addictions.

REQUIREMENTS

- A minimum of a B.A. is required.
- Pre-licensed individuals must provide either a transcript OR a copy of your diploma with their registration.
- Licensed individuals must provide their license number.
- Participants must complete an online evaluation within two weeks of completing each five or ten week class within this CE/CME activity in order to receive continuing education credit.

SCHEDULE of CLASSES, CURRICULUM and FACULTY

October 7, 2021 – December 16, 2021

Peggy Matson, Psy.D, Mary Meador, MD, Meredith Redding, M.A. and Robyn Smith, M.S.

Introduction to Psychoanalytic Concepts Pertaining to Substance Abuse and Eating Disorders.
Neurobiology, Addictive Behaviors and Affect Dysregulation
Attachment and Developmental Trauma

January 6, 2022 – March 10, 2022

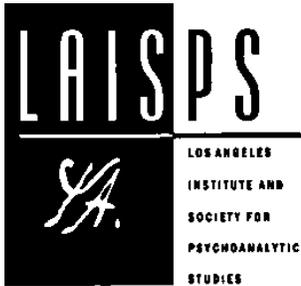

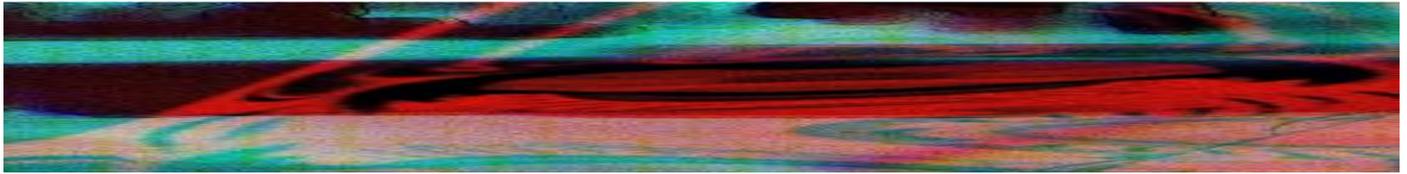

Steve Isaacman, Psy.D, Lanning Melville, Psy.D, Shireen Oberman, M.S.W. and Sandra Wilder-Padilla, Ph.D

Object Relations of Eating Disorders, Substance Use and Process Addictions
Binge Eating, Obesity and the Drive to Excess
Culturally Informed Use of Psychoanalytic Model with Diverse Populations.

March 24, 2022 – May 26, 2022

Lynda Chassler, Ph.D, Victoria Curea, Psy.D and Jill Lummus, Psy.D

Personality Disorders, Psychopathology, Eating Disorders and Substance Abuse
Special Challenges in Treatment: Exploration of Enactments and Psychosis as a Defense Against Intolerable Pain

ALTERED STATES OF BODY AND MIND

A PSYCHOANALYTIC EXPLORATION OF SUBSTANCE ABUSE AND EATING DISORDERS

REFUND INFORMATION: A student has the right to a full refund of all charges if she/he cancels the enrollment agreement prior to or on the first day of instruction. In addition, a student may withdraw from a course after instruction has started and receive a pro-rata refund for the unused portion of the tuition and other refundable charges if she/he has completed 60% or less of the instruction. In the following example, a student who completed 10 hours of a 90-hour program for which she/he paid \$1525.00 in tuition would receive a \$1,356.00 refund.

Sample Refund Formula:
Hours Paid For - Hours Attended = ____ x Total paid/100 hours
90 hours - 10 hours = 80 hours 80x1,525/100 = \$1,356.00
